Who we are

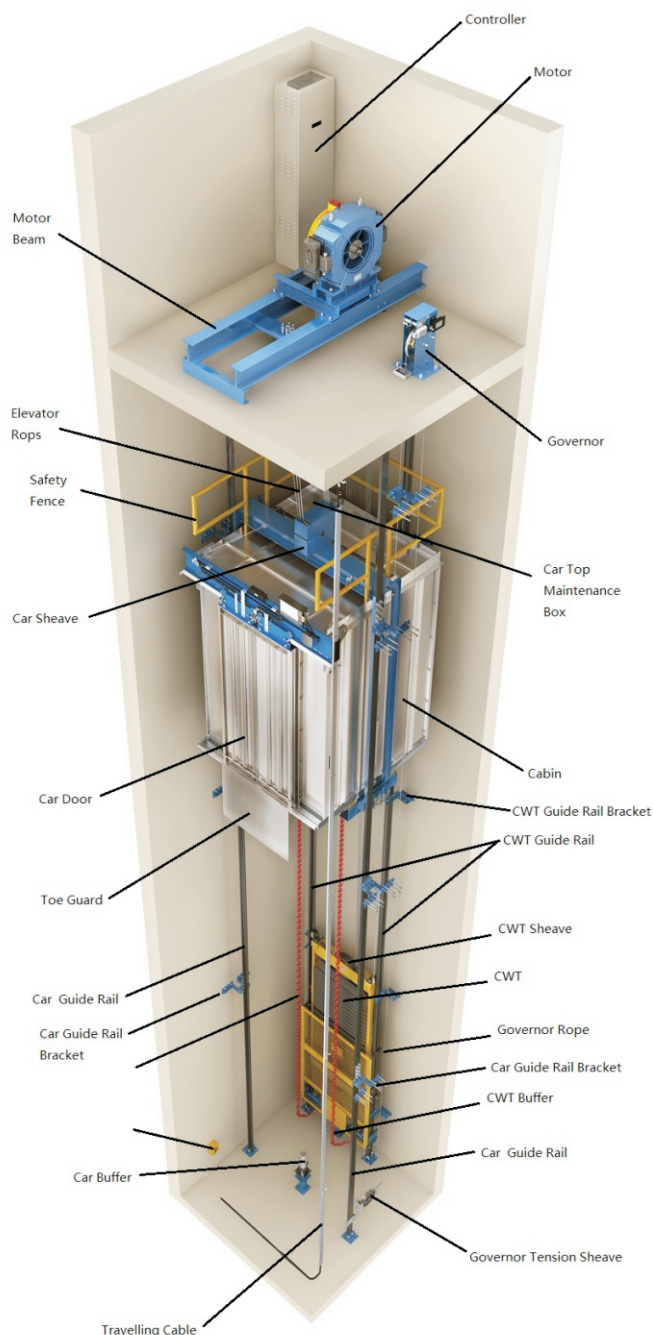

VSS Lifts & Elevators has built its reputation for its product quality, delivery commitments and effective After-Sales service.

The Indian Elevator Industry has never seen such good times as is being witnessed today. Where National, Multi-National as well as range of elevator brands even in an unorganized sector are taking full advantage of the market dynamics to their fullest potential. There is still a space for many more brands to emerge in the expanding market, which is why even the manufacturers of Elevator parts, Components, assemblies and equipments are trying to establish their manufacturing facilities in India which holds promise for them. In short, the Indian Elevator Industry is able to cater to the demands of vertical, quasi- vertical as well as horizontal transportation systems for carrying people and material with wide options. It is therefore, no wonder, that the two professionals having experience and expertise gathered over more than three decades in the industry, joined hands, established and promoted an elevator company titled as VSS Lifts and Elevators.

Today, the brand "VSS" is synonymous with the "Trust and Reliability" leading to its very strong presence in Residential, Retail, Commercial, Health care, Hospitality, IT, Industrial, Institutional and other special sectors where custom-built products with IP protection are required. In short, the VSS products are in demand across all the sectors where the demand exists. The management ably supported qualified and trained manpower is an advantageous position to share their experience and expertise with discerning customers of repute who desire to opt for the best in vertical transportation systems known for safety, reliability, durability, quality and performance. Encouraged by the confidence reposed, VSS looks forward to share the bright future with all those including the competitors, helping to build the brand. Finally, VSS management thanks their Employees, Investors, Vendors and Customers who have helped to anchor "VSS" brand with position of predominance in the Indian Elevator Industry.

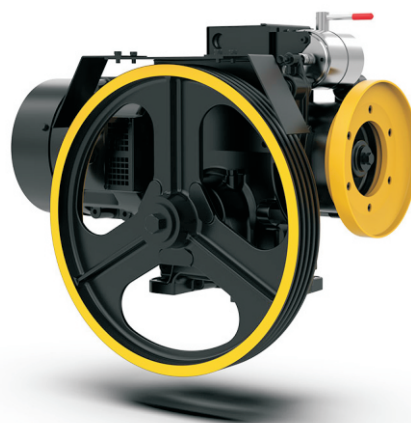

TRACTION **MACHINE ROOM** ELEVATORS

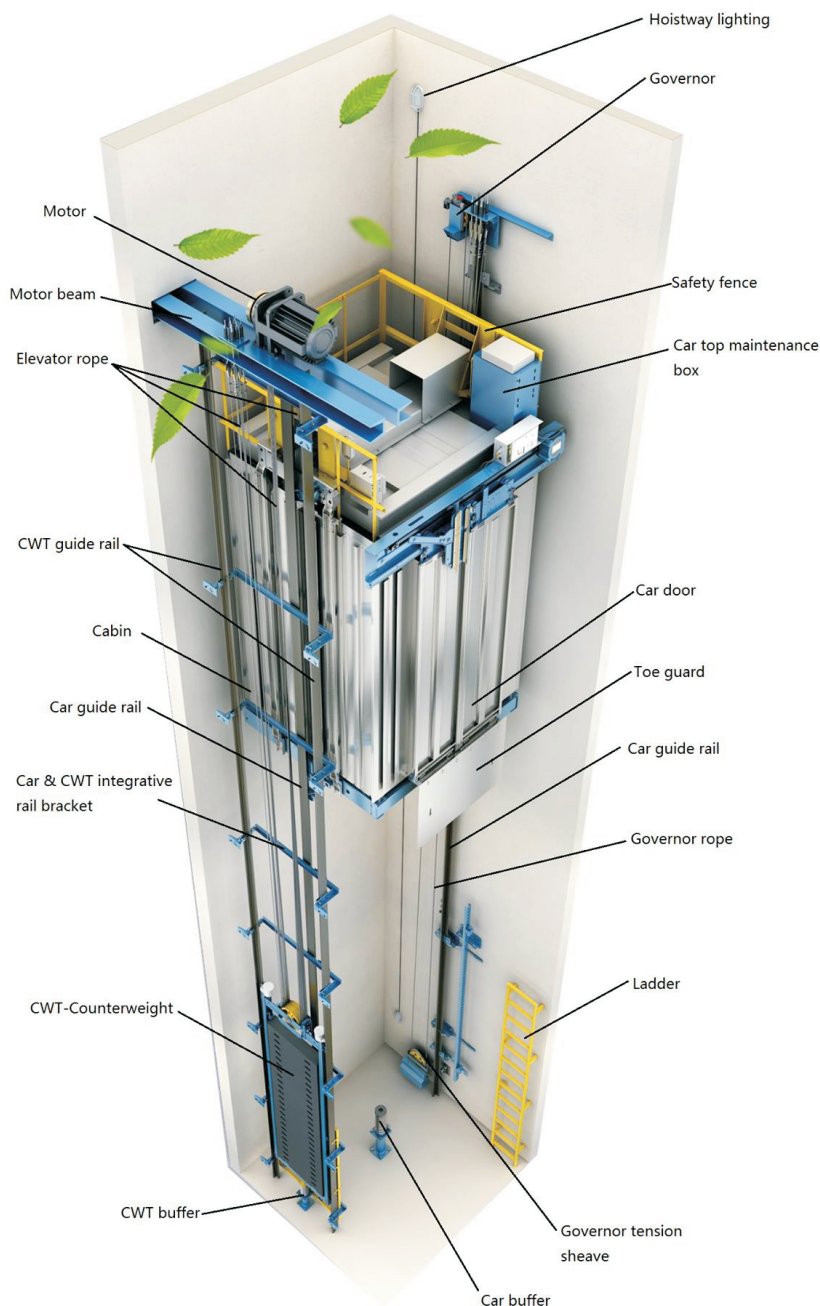

- ♦ VSS uses Italian make geared Italian Technology motor
- ♦ Minimum overhead required
- ♦ Motor operated
- ♦ Lifted by ropes passing over the pulley
- ♦ Requires a dedicated machine room
- ♦ Faster in operation
- ♦ Suitable for mid rise buildings
- ♦ Limited Floor travel
- ♦ Speeds up to 1.5 m/s

GEARED MOTOR ITALIAN TECHNOLOGY

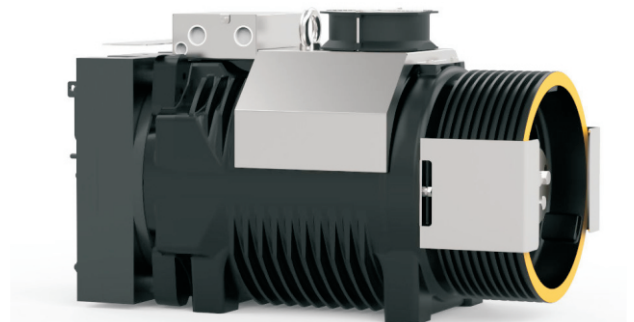

TRACTION **MACHINE ROOM LESS** ELEVATORS

- ♦ VSS uses gearless Italian Technology motor
- ♦ VSS provides speeds up to 2.5 m/s
- ♦ Doesn't require a dedicated machine room
- ♦ Gearless motors consumes comparatively less power
- ♦ Suitable for mid rise and high rise buildings
- ♦ No floor limit
- ♦ Excellent ride comfort
- ♦ Low noise level
- ♦ Minimum overhead required
